(5) BOTTLE OPENER HOOK

1. Direct Code Entry

1) Turn on the device (TV, DVD, etc.) to be controlled. 2) Look for the brand of the particular device you want to program in the code list and make a note of the first code in the list.

3) On your Clicker press the device key you want to control (e.g. [TV] key) and release. Then press the SET key for about 3 seconds until the LED light illuminates. Then release 4) After the LED light turns on in step 3, enter the

previously identified code (e.g. 0024) from the code list. If the LED turns off, it indicates that the code was accepted. If the LED flashes 3 times and then turns on. it indicates the code was not accepted. Repeat this step to enter the next code. 5) Then press the POWER button on the Clicker to see

if it can turn off the device. If it can turn off the device, it means the code is correct. If not, please repeat from step 2 trying the next code in the list for that device.

The remote control exits programming mode: If no keys are pressed for 15 seconds. If any key besides the number keys are accidentally pressed.

2. Manual Searching

1) Turn on the device (TV, DVD, etc.) to be controlled. 2) On your Clicker, press the device key you want to control (e.g. [TV] key) and release. Then press the SET key for about 3 seconds until the LED light illuminates. Then release

3) After the LED illuminates in step 2, hold and aim the Clicker at the device. Press the [VOL+] key or [VOL-] kev. The LED will flash once.

4) Repeat. Each time you press the [VOL+] key or [VOL-] button, a code will be transmitted. When the appliance powers off, it indicates that the code was 5) Press SET key, OK key or any device key immediately

to confirm. The LED turns off.

The remote control exits programming mode if no buttons are pressed for 15 seconds.

3. Auto Searching

1) Turn on the device (TV, DVD, etc.) to be controlled. 2) Press and hold the device key (e.g. TV key) for about 3 seconds until the LED illuminates. Then release.

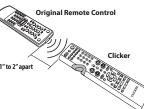

3) After the LED illuminates in step 2), hold and aim at the device you wish to control. Press and release the POWER key. A code will be transmitted automatically. The LED will flash once a second.

4). When the appliance displays a volume symbol (e.g. TV) or powers off (e.g. DVD) it indicates that the code is found. Press device key immediately to confirm and save. LED turns off.

If the URC does not control the device after we finishing setup, please enter manual searching and press the "VOL-" to find the right code. **Learning Function Setup**

1) Push the device button once for the device you intend to teach. The device and indicator light will flash once. (OR: push the OK key so the device that is intended to go into study mode will flash once.) 2) Push and hold the LEARN key for 3 seconds, the device and indicator will start blinking, which means it is in learning mode, point original remote control and the Clicker at each other 1 to 2 inches apart. 3) Press the key on the Clicker you wish to teach. The

device and indicator light will illuminate. Hold the key

of the original remote control down and only release when the above two lights start blinking, which means learning function for this button is complete. 4) Push LEARN key to exit learning function after each key learned. 5) Repeat steps 2 through 4 to continue teaching

functions.

1) After entering learning mode, indicator will blink twice and exit learning mode. 2) Any function key of a device (except LEARN, SET,

ALL OFF, FAV, device key) can be taught new functions again and again, but will only keep the data of the latest learning. 3) If any device has a new code entered, all data from

learning will be erased. How to erase learning data:

Push the device key. The indicator light will illuminate. Push LEARN down and at the same time, push the device key for about 2 seconds. The LED will blink 3 times and the data is erased.

Press and hold ALL OFF key for about 1 second to enter 'ALL OFF', the Clicker transmits the POWER code of each device automatically. During this time related device LED lights flash. It will help you to turn OFF or ON all target devices.

After all target devices are turned OFF by ALL OFF key press it again to turn ON all target devices, and your devices will be put on standby mode.

How To Set Up MACRO Keys

MACRO kevs are M1, M2.

Each MACRO key can include a maximum of 10 control commands (SET, LEARN, ALL OFF and device key are not included). This function can unite several controls to one key. This can be used for routine commands. 1) Press SET plus M1 or M2, the LED light illuminates. 2) Press the sequence of the keys you want to activate

3) Press M1 or M2 immediately to confirm, press M1 or M2 again, the set macro will be transmitted and the LED will flash.

1) When setting the Marco key, if the keys entered exceed 10; or no keys are pressed for over 15 seconds, the unit will quit the setting automatically (LED off), the previous setting will remain.

2) Any MACRO key of a device (except LEARN, SET, ALL OFF, M1, M2, device key are not included.) can be set again and again, but will only save the data of the latest setup.

Code identification Feature

After having found the correct code through auto search or manual search the code can be displayed using the following procedure.

1) Hold SET and press 1 simultaneously then release. The number of flashes represents the numeral value of the first digit. 2) Hold SET and press 2 simultaneously then release.

The number of flashes represents the numeral value of the second digit.

3) Hold SET and press 3 simultaneously then release.

Hold SET and press 0 simultaneously for about 3 seconds, the indicator LED blinks 3 times (LED off). This erases all of the learning data, MACRO commands and code setting. The Clicker will have restored to factory defaults.
